## **“PROSTHODONTICS – HERE AND BEYOND”**

The benefits of prosthodontics treatment go beyond mere aesthetics. By replacing missing teeth and restoring oral function, patients experience improvements in their overall quality.

This program will cover awareness regarding various prosthodontic treatment aspects.

Sensitizing the students on workflow, treatment planning and documentation for a patient, to meet each patient's unique needs.

Furthermore Digital dentistry, temporomandibular dysfunction, maxillofacial prosthodontics, implant placement, the interrelation of other medical/dental clinical specialties as well as the role of the prosthodontist will be included.
