

Aim

This webinar aims to provide broad information on various health insurance schemes available in India and their utilization by the patient in hospital settings.

Objectives

1. To elaborate on health insurance and its benefits.
2. To describe various types of health insurance & schemes.
3. To discuss utilization of health insurance & schemes by the patients.
4. To explain the role of nurse in health insurance claims of patients.

Introduction

It is rightly said that “Health is wealth”. To reserve the treasure of health every individual should invest on their own health, which includes good diet, exercises, sound sleep and good habits. Today’s fast growing sophisticated health segment imposes financial burden on health care needs of the individual. Hence investing through health insurance is an intelligence way of meeting health needs.
