

Aim

The webinar focuses to equip the students with knowledge regarding early identification of arrhythmias and management.

Objectives

1. To explain the basics of Electrocardiogram
2. To develop skills in interpreting abnormal Rhythms
3. To enhance effective management of Arrhythmias

Introduction

Nurses should possess adequate knowledge and skills of arrhythmia interpretation, so that they can assess abnormal and life threatening arrhythmias. The problem solving depends on the nurse's ability to recognize and manage the presented arrhythmias with appropriate interventions.

About us

MGM New Bombay College of Nursing, a constituent unit of MGM Institute of Health Sciences (Deemed to be University u/s 3 of UGC Act, 1956 Grade A Accredited by NAAC), laid its foundation in 2008. The College offers Undergraduate, Postgraduate & Ph.D programme in Nursing with realistic and successful access to higher education.

In the year 2016, recognizing the significant expansion in tertiary care services, the Union Ministry of Health and Family Welfare launched Nurse Practitioner in Critical Care (NPCC) Post Graduate Programme. MGM New Bombay College of Nursing started the competency based NPCC programme as one among the pioneering institutes in India from 15 November 2017.
