**Organizing committee with student volunteer**

## E poster session Judges

**INTRODUCTION**

- Acromegaly is a rare condition in which whole body or parts of body, particularly extremities grow larger than normal.
- Approximately 95% of Acromegaly cases result from anterior pituitary tumours (somatotropinomas).
- Growth hormone (GH) secreted by these tumours triggers liver to produce insulin like growth factor-1 (IGF-1).

**PHYSICAL EXAMINATION**

- ✓ Coarse facial features
- ✓ Prognathia
- ✓ Dental malocclusion
- ✓ Acral enlargement
- ✓ Thick skin

**Case History**

6.11 Year old female patient presented with polyuria associated with vomiting and progressive weight loss impairment since 6 months.

- ✦ No weight gain (-20kg in 6 months)
- ✦ No change in foot wear size
- ✦ No irregular periods since 6 months
- ✦ Excessive sweating

**Diagrams:**

- Hypothalamus:** Shows the location of the pituitary gland.
- Pituitary gland:** Shows the location of the pituitary gland.
- Acromegaly:** Shows the effects of excess GH on the body, including enlarged hands and feet, and facial features.
- Case History:** Shows a patient with acromegaly.

## CME Overall Suggestions & Comment Feedback

Great

Good

Excellent

Very well-organized CME

Good seminar

Online poster presentations difficulty in audibility and visibility

Would like you to conduct more sessions like this.

Excellent

Well organized

good

Wonderful CPD organised. Keep organising more such CMEs

Next time start on time otherwise it was good

It very good. It increased our knowledge about cancer biomarkers.

Well organized

It was a nice experience.

Good

Excellent CME

It was nice academic feast.

Everything was perfect

CME overall was quite informative and interesting

Perfect overall

Excellent

Nice

Overall CME is good

It was a superb academic activity.

Excellent

Good management

No suggestions all was good

Great academic feast.

It was excellent!

Nicely organized CME

Excellent

All good

Nice

Very well conducted conference. Thank you

Informative sessions

Very good arrangement and informative CME

The program conducted was excellent. It was well-organized and informative, providing valuable insights and engaging content.

Excellent

Excellent

Excellent

Informative

Very informative sessions

Time management

Happy

Excellent

Good, Keep up the good work. Thank you.

Super arrangements

Good CME

I was a very informative topic. Can arrange similar CME in future.

Good work

excellent CME

Wide variety of topics covered under cancer markers

it was very informative

Excellent

Well organised CME

Great CME

Excellent

No suggestions

Very informative webinar

Overall, a good CME

Nice CME... informative

Good

Excellent

Excellent

Good CME giving importance to the most relevant topic of the time. Very much informative.

Well organised academic feast

Informative and well-organized CME

No comments

A nice and new topic for CME, very informative and inclusive.

Good

Very well-organized CME, kudos to the organizing committee. Time management could be improved.

Effective

Good

Overall, it was a nice update

Good CME

Good organised workshop.

No need to improvement, overall CME well organized.

Everything was absolutely perfect

Good

Perfect CME

Very well organised CME

Very well organised CME

Good experience.

We want more such CMEs in the future on especially clinical biochemistry lab related topics

Excellent

Overall is good

Good CME conducted.

workshop in future for hands on experience would be value added

Thank very much respected Abichandani madam for giving opportunity to be part of this excellent CME, there was so much to learn from you throughout the day in the management of this event.

congratulations to all your team. 🙌

Excellent, waiting for the next one
