

ABAT® Certification Training Program

Offered by

Samarth Early Intervention Center

Professional training aligned with QABA®

ABAT coursework requirements

ABAT PROGRAM OVERVIEW

This program is designed for professionals working with children and individuals with developmental needs who wish to complete the required coursework for the **ABAT® credential** offered by the Qualified Applied Behavior Analysis Credentialing Board (QABA®). The program focuses on ethical, evidence-based application of Applied Behavior Analysis (ABA) principles and prepares participants to apply for the ABAT® examination conducted independently by QABA®.

TARGET AUDIENCE

- This program is suitable for:
- Behavior Therapists / Interventionists
- Special Educators & Shadow Teachers
- Speech Therapists & Occupational Therapists
- Psychologists & Counsellors
- Teachers in inclusive settings
- Therapy center staff
- Students pursuing Master's in Psychology or Social Work
- Parents actively involved in intervention

WHY PURSUE THE ABAT[®] CREDENTIAL?

- Internationally recognized entry-level ABA credential
- Structured foundation in evidence-based behavior principles
- Increased professional credibility in clinical and educational settings
- Pathway toward advanced credentials (QASP-S[®], QBA[®])
- Eligibility to work under qualified supervision in ABA settings

ABAT is your entry point into a structured, ethical, and impactful career in Applied Behavior Analysis.

WHY CHOOSE SAMARTH FOR YOUR ABAT® TRAINING?

- QABA-aligned coursework covering the complete ABAT Task List
- Led by certified BCaBA®, BCBA®, and BCBA-D® professionals
- Strong emphasis on real-world implementation
- Structured mentorship and guided application
- Limited batch size for focused supervision
- At Samarth, we prioritize competence before certification.

CAREER OPPORTUNITIES WITH ABAT®

-  **ABA Therapy Centers & Early Intervention Clinics** – Work directly with children implementing behavior programs
-  **Inclusive & Special Schools** – Support classroom behavior and skill development
-  **Home-Based Intervention Programs** – Deliver structured 1:1 therapy under supervision
-  **Multidisciplinary Clinics** – Collaborate with Speech Therapists, OTs, and Psychologists
-  **International Opportunities** – Credential recognized by the Qualified Applied Behavior Analysis Credentialing Board (QABA®)

ABAT opens the door to a structured, supervised, and growing career in Applied Behavior Analysis.

COURSE PHILOSOPHY – ABAT® TRAINING AT SAMARTH

-  **Competence Before Certification** – We prioritize real skill development, not just exam readiness.
-  **Conceptual Clarity with Application** – Understand the “why” behind every strategy, not just the “how.”
-  **Ethical & Responsible Practice** – Grounded in professional standards set by the Qualified Applied Behavior Analysis Credentialing Board (QABA®).
-  **Supervision-Oriented Learning** – Training designed to prepare you to work effectively under qualified supervision.
-  **Data-Driven & Evidence-Based** – Rooted in scientifically validated ABA principles.
- **Our philosophy: Build confident, ethical technicians who create measurable and meaningful change.**

Understanding Applied Behavior Analysis (ABA)

- Scientific study of behavior and environmental influence
- ABC framework: Antecedent → Behavior → Consequence
- Data-driven decision making
- Skill acquisition and behavior support strategies
- Evidence-based practice across clinics, schools, and homes
- ABA focuses on changing environments to produce meaningful and measurable outcomes.

LEARNING OUTCOMES

Participants will be able to:

- Demonstrate foundational ABA terminology and principles
- Identify functions of behavior
- Assist in implementing skill acquisition and behavior intervention plans under supervision
- Collect and interpret behavioral data
- Maintain ethical and professional standards
- This program does not authorize independent practice.

COURSE STRUCTURE & FORMAT
