Subject: Permission to carry out histopathological studies in Rat

Respected Madam,

I am a PhD student in Medical Biotechnology and working under the guidance of Dr. Mansee Thakur. My PhD topic is based on "*Study of Effect of Iron Nanoparticles on Iron Deficiency Anaemia using Rat Model*".

We are carrying out some experiments on the effect of iron nanoparticles on rats. In this connection we would like to monitor the histopathological changes in various organs of rat induced using iron nanoparticles. I would be grateful if you would kindly permit us to use the facility of histopathological analysis available in the pathology Dept of Dental College.

I assure that I will assist the concerned staff for processing the samples wherever required.
Thanking you.

Sincerely,
Ms Smital Kulkarni

PhD Scholar, Medical Biotechnology

Dr. Sabita Ram.

Kindly facilitate and permit.

Dr. Mansee Thakur
