Report

Title: "Aligners: Demystified"

Date: 17th November, 2022

Speaker: Dr. Ritesh Mahashabde

Time: 9am - 4pm

Venue: Seminar room, Department of Orthodontics & Dentofacial Orthopaedics, MGMDCH

- **Goal:** Goal of this program is to enable students and faculty members to effectively use aligners in clinical practice.
- **Description:** It was a state level Professional Development Program for faculty and Hands-on Workshop for Post Graduate students. The speaker, Dr. Ritesh Mahashabde is a very well informed clinician who shared his knowledge on use of aligners in orthodontic practice. He trained the attending students and faculty members on topics like case selection, scanning, treatment plan formulation, aligner printing, delivery and follow up. It was an extremely interesting and informative session. We received a positive feedback from the participants.
- **Application:** This program will enable students and faculty members to effectively use aligners in orthodontic practice by appropriate case selection and treatment execution.
