

**Title of the Event: Passive Self Ligation: Damon Philosophy, Its Efficiency & Advansync
Class II corrector**

Date of Event: 23/12/22

**Number of Participants: Students-31
Faculty –9**

Private practitioner – 10

Venue: Auditorium, MGM Dental College & Hospital

Organizing Department/Body: Dept of Orthodontics

Resource Person/ Industry Involved: Ormco

Speaker – Dr. M.S. Kannan

REPORT

The following workshop was conducted for faculty, post-graduates and private practitioners. The workshop focused on Damon Philosophy and science behind it. The speaker gave insights on Bracket positioning with Damon, use of disarticulation, early elastic and coil spring. He shared his vast experience and knowledge in treating his cases with Damon brackets. He also discussed about how to go with treatment planning of such cases and biomechanics behind it as well as how to achieve the best finish with your cases. In the afternoon session he gave an Lecture on a new fixed functional appliance – Advansync2 for class II molar to molar correction (Designed by Ormco). What makes this appliance different from other fixed functional appliance is that it can be used from day 1 of the treatment itself. He demonstrated the placement of this appliance and also gave an insight on how the appliance brings about molar correction and what all factors to be taken into consideration.
