JUSTICE - THE AWARENESS OF RIGHTS

Justice is a concept of maintenance or administration of justness with impartial adjustment of conflicting claims. But if we dive deeper, justice isn't just an abstract concept to regulate institutions, but also a fire in the bones to promote the well being of all. Being aware of one's rights allows a person to be able to take advantage of the rights decided lawfully for them in the constitution. The lack of one's awareness to the rights entrusted to them ends up being a major problem faced by developing countries like ours. That being said, the theme for this month's issue of the newsletter is "Justice - The Awareness of Rights".

This issue also includes the events conducted by the College Working Committee of the college, write-up from our staff in charge, a word from parents, as well as the achievements by our students.

Therefore, dive in to know more!

SUB EDITOR'S SAY: JUSTICE - THE AWARENESS OF RIGHTS

Justice is a concept of moral rightness based on law, rationality, ethics, rationality, natural law, equity or religion. It is also the act of being fair and just.

The question is how many are following the path of justice. We live in a materialistic world, where ethics, laws and order etc. are less cared about. Everything can be purchased with money even love and respect. People are generally measure others on the scale of richness, the more rich a person is the more will be his love and respect in the society and vice-versa.

We are the one responsible for our world. Change from us can ultimately change our society for better. Pay fairly to your workers at home and office, treat them with respect. It is only because of their hard work we lead a peaceful life. Educate them about their rights. Even encourage your kids to treat them nicely.

Dr Sarika Shetty
Reader
Department of Periodontics

FACULTY : JUSTICE - THE AWARENESS OF RIGHTS

Justice is an essential condition for all round development of personality of an individual. In consideration with history, man has recognised the importance of justice in his society since the earliest of times. India was declared a Republic in 1960s as per the constitution. India has solemnly resolved to constitute into sovereign, socialist, secular, democratic republic and secure all it's citizens justice, liberty and equality.

The fundamental rights of the nation guarantee equality and freedom to Indian citizens in spite of being strongly rooted to the laws and it's related disciplines. The concept of justice continues to be elusive primarily because it belongs to morality and law may clash at times.

In a country who's history span's hundreds of years of exponential inequality where customs and culture have a strong influence on social and political life, it is difficult to identify law with justice. There may be times when law may be strict and unfair or may not cater exception. It may not cater to human emotions involved. Justice sounds like a simple and honoured term to us but what about the world we are living in. We are living in today in co existence with justice ? Is justice being served?

On the surface, the outlook is promising for women in healthcare, but women still face discrimination in employment, compensation, respect as they join health care industry workforce.

In a largely patronised society, there was a woman who not only braved the most stringent odds but also etched her name in the field of science. This was Dr Anandi Joshi, the first Indian gem of all physicians who pursued her higher education in 1880s and also stressed on the need of female doctors in a country with the vision of opening medicine industry/ healthcare industrial gates to the women .

Since the pioneering first lady doctor in 1880's, till present date woman have been inspiring new generation of women in fields which were once dominated by the men. However, women are still being held back from attaining positions of influence in medical world. They are regularly content with sexism and discrimination before hitting the proverbial glass of ceiling.

Justice makes the citizens of any given country to have faith in the laws of their country and therefore their judicial system, that brings unity to the country and instead provide fear in people to commit crime. This gives voices to poor and weak. In all justice as an essential aspect of the society to achieve a peaceful and serene India.

Dr Amit Gaikwad

Lecturer

Department of Prosthodontics

PARENTS SPEAK - JUSTICE :THE AWARENESS OF RIGHTS

Justice is the rightful condemnation of wrongdoings faced in our everyday lives.

Fundamentals rights which are given to us by the law and the constitution, becomes an important means for achieving justice.

Lady justice holds her scales with blindfolds on her eyes, but it hardly makes sense for us common people to follow any set of rules or its said repercussions in the name of law blindly. If we do not remain aware to the rights that we behold, it leaves us in a vulnerable state.

It leaves us open to being taken advantage of by goons who pose as being well wishers. To avoid such situations it is important to be aware and well - read in matters of the law and the rights that we have.

LIFE FIRST TOBACCO CESSATION PROGRAM

7th July 2022

The Tobacco Cessation Centre (MGMDCH - TCC), MGM Dental College and Hospital, conducted a level 2 training course on 7th and 8th July 2022. It was a value added course, titled "Life First Tobacco Cessation Training Programme" in association with Narotam Sekhsaria Foundation.

All the interns and faculty members were invited to attend the value added course, which proved to be a knowledgeable as well as an important lecture for all the oral healthcare professionals present there.

WHAT AFTER BDS - PART 2

11th July 2022

The College Working Committee of MGMDCH in association with the Alumni Committee had organized a lecture for all the interns of the college on the topic "What After BDS - Part 2" on 11th July 2022.

Interns are faced with a number of opportunities as well as the questions of "what next?!" "MDS or clinical practice".. to help ease the stress of having to make tough choices lying ahead, Dr Chinmay Rao MDS OMFS, conducted the lecture which was aimed specifically at our interns.

The lecture was beneficial to the interns as it touched upon on all important aspects of being a young dentist. The lecture touched upon topics such as important points to remember while selecting a subject for post graduation to skills required for setting up your own clinic. The lecture was insightful and everyone present there surely reaped benefits from it.

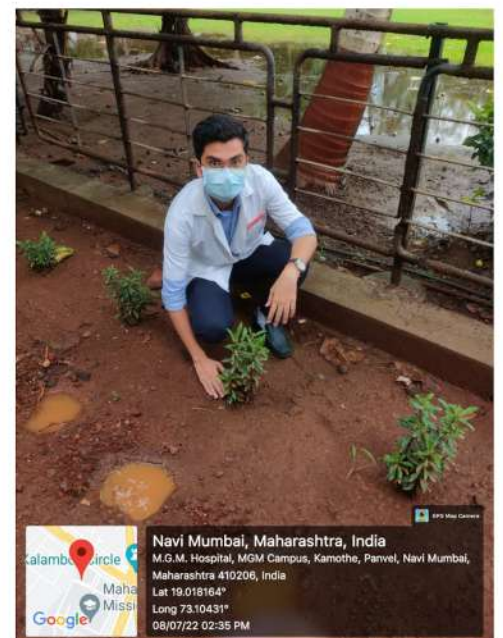

ONE STUDENT ONE TREE CAMPAIGN

6th July 2022

As a part of the 'Azadi ka Amrut Mahotsav Celebrations', the National Service Scheme unit of MGMDCH had arranged a tree plantation drive in the campus on 6th July 2022.

The tree plantation drive was titled 'One Student, One Tree Campaign' and students from all the years, including first year student to final year students as well as the interns took part enthusiastically.

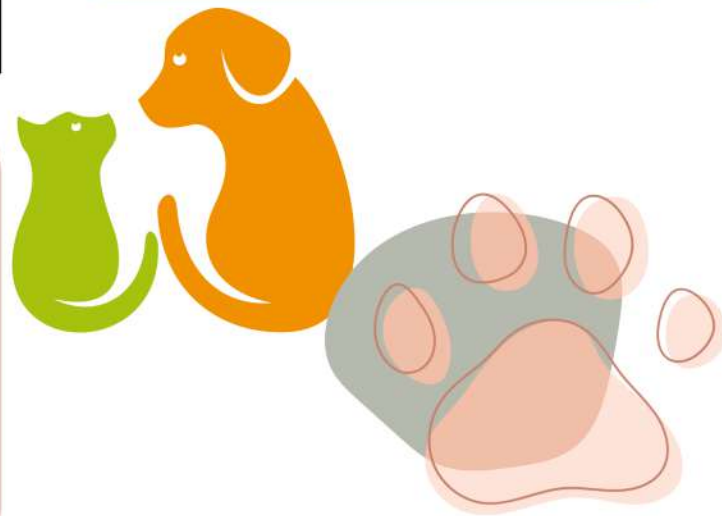

INAUGURATION OF UMEED

21st July 2022

The Animal Welfare Club of MGM Dental College and Hospital, "Umeed" in association with the Literary Club and the College Working Committee of the college held its inauguration ceremony on 21st July 2022.

All animal lovers had been looking forward to this event eagerly as the inauguration of the animal welfare club "Umeed" took place, in presence of our beloved Dean Dr Srivalli Natarajan as well as the staff incharge of the club, Dr Sarika Shetty.

PFA member, Mr Vijay Rangarewas invited as the chief guest for the occasion. As less and less space is available for stray animals in and around our surroundings as well as keeping in mind the atrocities committed against animals seen within educated societies, a lecture was conducted by him on the topic "Awareness of Animal Rights and Legalities".

IMPACT LECTURES

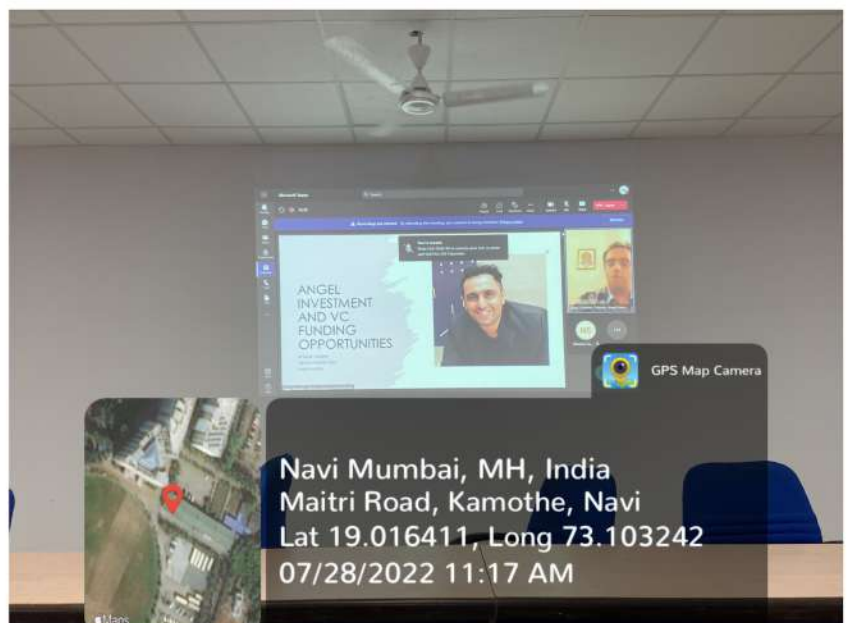

28th July 2022

On 28th July 2022, the institute's innovative council had conducted a series of two lectures titled "Impact Lectures". Mr Sagar Chandni and Mr Rupak Shah were the two guests speakers invited for the event.

The lectures were aimed at throwing a light on the outer world and making interested entrepreneurs aware about investing, opportunities provided by the government, angel investments as well as different business models. All faculty members, students and interns were encouraged to register and join in via the available virtual links.

AESTHETIC DENTISTRY LECTURE

26th July 2022

The College Working Committee of MGM Dental college in association with the Department of Conservative and Endodontic dentistry had conducted a session on the topic "Aesthetic Dentistry".

The lecture was conducted on 26th July 2022 and Dr Sagar Abichandani was invited as the guest speaker for the same. Dr Sagar has completed his MDS Prosthodontics and followed that up with specialization in Restorative and Aesthetic dentistry from Manchester and completed his Clinical Mastership in implant dentistry from New York, USA.

FLUID ART WORKSHOP

31st July 2022

The Art club of MGM Dental college and hospital, Artville organised a fun filled event on 31st July 2022. The event was open for all students, interns and faculty alike. A workshop was organised where students were provided acrylic paint and all the required materials to produce their own art masterpieces.

The event turned out to be a beautiful event with added therapeutic benefits of painting with our own hands. There was good participation from students and the session was a good break for all participants from their stressful lives.

CREATIVE MINDS

ती

हो "ती" तीच होती . आज पण तीच होती.
उठल्या क्षणी सकाळी ,एक ध्वनी कानी आली.

पैंजणांची माळ जनू ,काही सांगून गेली.

ही तिचीच गुणगुण होती.

हो "ती" तीच होती .

मृगनयनांचे मृगजळ कसले ,

नयन माझेही त्यातच फसले ,

प्रेम मायेने जनू कुंपण रचले,

ही तिचीच माया होती,

हो "ती" तीच होती .

हळूच हसणे,उगाच रुसणे,

एकटक पाहत बसणे,

हे क्षण त्या समयी स्थिरणे,

ही तिचीच किमया होती,

हो "ती" तीच होती .

श्रावण आला , बरसून गेला,

ही नाचे धारांच्या संगे,

रंगून फुलांच्या रंगे,

हि तिचीच रिमझीम होती,

हो "ती" तीच होती .

तो इंद्र ही हसला,

आणि बघतच बसला,

आमावस्येला चंद्र जो दिसला,

हि तिचीच प्रतिमा होती,

हो "ती" तीच होती .

निद्रिस्त होते ते डोळे ही उघडले,

मी मग्न होतो ते स्वप्न ही तुटले,

आता एक स्वप्नपरी मज समोरी होती,

हि तिचीच कविता होती.

हो "ती" तीच होती.

CREATIVE MINDS

SUPERFICIAL

IF TRUE ABOUT BEING FAKE,
IS IT STILL CALLED THE SAME?
IF CLEAR ABOUT BEING A FACADE,
HAVING NOTHING UNDERNEATH
ISN'T THAT SUPERFICIAL, TO COVER ALL THAT THERE IS?

IS IT STILL SUPERFICIAL?
IF IT'S ALL LAID OUT
BASKING IN THE SUN
WITH NO ULTERIOR MOTIVE UNDERNEATH
NO DEEP GAZING, BUT
IMPERFECT SIMPLICITY
LYING IN ITS CHAOS.

A STILL PATTERN LAYING BARE
WITHIN CONTRADICTIONS
PROBABLY NEEDS NOT A LEARNED EYE
BUT JUST A PATIENT ONE.
